

ALLEN is hiring 4,500 employees in France in 2024

Press release
Paris - March 6th, 2024

ALLEN, a global leader in Engineering and IT Services, is expanding its workforce to meet the growing needs of its clients. To support its growth, the Group has announced the recruitment of 4,500 new employees throughout France in 2024.

Present in 12 sectors of activity, ALLEN carries out high-level technology projects across the value chain of the most prestigious companies worldwide. Artificial intelligence, 5G connectivity, cybersecurity, digital manufacturing, data, R&D, software development... The need for specialised skills has never been so high. ALLEN plays a crucial role in supporting the challenges and transformation of the Industry and Services sectors.

Stéphane DAHAN, Director of Engineering Recruitment, explains: « Our objective is twofold: first, to strengthen our teams with engineers who have the potential to quickly evolve into project management or specialist positions, to enhance the management of our projects and technical expertise within our centers of competence. Second, to develop the careers of Business Managers to manage our various profit centers. »

Engineer profiles wanted: From recent graduates to experienced professionals

4,000 career opportunities are available for engineers, including:

- Study and Design Engineers
- Project Managers
- Software Engineers
- Infrastructure Engineers
