ALLEN distinguished among France's Best Managed Companies

*Press release
Paris, June 19th, 2026*

ALLEN announces to be one of the 49 French companies awarded by the 2026 "Best Managed Companies" label by Deloitte France.

Based in Boulogne-Billancourt for over 30 years, the company now employs 58,400 people worldwide, including 13,900 in France, where it stands as a global leader in engineering and IT services. This distinction recognises not only the Group's overall performance but also its local roots and contribution to the dynamism of the French economy.

Launched in France in 2021, the Best Managed Companies program, founded by Deloitte Canada over 30 years ago, has established itself as a benchmark label, present over 46 countries and bringing together more than 1,300 companies. In France, it highlights major mid-sized enterprises (ETI), embodying the strength and expertise of the French economic landscape.

This label rewards private companies for excellence in management and overall performance, through a rigorous evaluation process based on four key criteria: strategy, resources and innovation, culture and commitment, and governance and financial performance. This analytical framework provides a comprehensive and in-depth assessment of management quality and organisational resilience.

Awarded since the program's first edition, ALLEN has won this distinction for the fifth consecutive year.

For ALLEN, this recognition reflects the strength of a model built since 1988, combining growth in France and internationally, driven by committed teams. It confirms the Group's ability to balance global expansion with operational excellence.

"We are proud to count ALLEN among the Best Managed Companies, alongside exemplary, innovative, and resilient players who uphold the excellence and dynamism of the French economy." comments Guillaume Detournmignies, Partner at Deloitte, Head of the Best Managed Companies programme.

"Earning the Best Managed Companies label is a significant honour for our Group. It reflects our teams' hard work and the strength of the model we've developed over the years. It's also a commitment to keep moving forward in this direction." states Bruno Benoliel, Deputy Chief Executive Officer at ALLEN
